BioPed Footcare Named Official Orthotics Provider & Partner of the OHL

Oakville, ON — BioPed Footcare is proud to announce its partnership with the Ontario Hockey League (OHL) as the Official Orthotics Provider & Partner of the OHL, bringing together two organizations committed to supporting athletes and the communities that help them thrive.

Hockey has long been at the heart of communities across Ontario, bringing families, fans and generations of players together around a shared passion for the sport. For young athletes, that passion often begins in their local community and grows into a dream of playing at the highest levels.

BioPed Footcare shares that strong connection to community. With more than 70 clinics across Canada, BioPed Footcare provides foot and lower-limb care to people of all ages and activity levels in the communities where they live, work and play. The partnership with the OHL brings together this community presence with BioPed's expertise in supporting movement, mobility and lower-limb health.

"Becoming the Official Orthotics Provider & Partner of the OHL is an exciting opportunity for BioPed and reflects the expertise and reputation we have built in foot and lower-limb health. We are proud to align our brand with an organization that has such a strong connection to communities across Ontario and plays an important role in the development of young hockey players. As a trusted leader in our field, we look forward to sharing our expertise and supporting communities where we can," said Jeff Marshall, Director of Operations at BioPed Footcare.

The partnership also reflects a shared belief in helping people stay active and do more of what they love. Whether on the ice, in the community or pursuing their next goal, BioPed and the OHL are committed to supporting the people and communities that make hockey such an important part of Ontario.

About BioPed Footcare

BioPed Footcare is a Canadian leader in foot and lower-limb care, with more than 70 clinics across Canada. BioPed's team of healthcare professionals provides personalized solutions to help people improve their mobility, manage foot and lower-limb concerns and stay active. Services include custom orthotics, footwear, bracing and compression solutions, and medical foot care treatment.

About the Ontario Hockey League

The [Ontario Hockey League](#) (OHL) has long been regarded as the number one development league in the world, continuing to serve as a leading supplier of talent for the National Hockey League. The OHL consists of 20 teams, with 17 located in Ontario, two in the state of Michigan and one in the state of Pennsylvania.

A proud member of the Canadian Hockey League, the OHL is also a leading provider of hockey scholarships, with over 268 graduates receiving OHL Scholarships to pursue a post-secondary education of their choice in 2025-26, resulting in a collective investment of over \$42 million by OHL member teams since 2010.
